DETAILED ACTION

Claim Objections

1. Claim 21 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, claim 21 has not been further treated on the merits.
2. Claim 21 depends from claim 18. Claim 18 is a multiple dependent claim.
3. Claim 48 is objected to because of the following informalities: the phrase "a long" should actually be the word *along*. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claim 47 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
6. Claim 47 contains the limitation "a spacing between a center of the first wiring is disposed under the second connection" however this limitation is indefinite since no other point is specified in relation to the center of the first wiring.

Double Patenting

7. Claims 40 and 41 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 42 and 43 respectively. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Allowable Subject Matter

8. Claims 6-20, 22, 23, 25, 28-37, and 42-46 are allowed.
